POSTS

- Certificate of participation in the event of the third scientific conference entitled Technological Knowledge and Digital Transformation in Higher Education.
- Also, the Let's Go project participated in the "We Are All Creative" organization in the exhibition accompanying the first digital transformation conference.
- A core member of the leadership of the Computer Technology Department of the Google Developer Student Club at the University of Saba.

PROJECTS

OHM Technology App. Built a smart voice assistant application that leverages AI to understand and respond to user voice commands. The app includes user authentication (account creation and login), voice recognition, AI-powered response generation, and task automation features. Technologies used: Python, Speech Recognition APIs, Natural Language Processing (NLP), Flutter (for UI).

Personal Portfolio. Designed and developed a modern, responsive personal portfolio website to showcase my skills, experience, and projects in software development and AI. Built using Next.js with React server components and server actions to ensure fast performance and seamless user interactions.

CERTIFICATIONS

- CCNA1v7: By General Telecommunication Institute with Cisco (Aug-Oct - 2024).
- Certificate Y-TECH (Al-Ruwaishan Group) as a training and employment (Dec-Apr - 2024-2025).
